

Metric Ultra Low Slotted Cap Head

stainless steel 303

T0204.A2

STAINLESS STEEL

Material

Stainless Steel AISI 303

Important Notes

Manufactured from AISI Stainless Steel (Grade 303), these screws offer excellent corrosion resistance and reliable perfor-

mance in a wide range of environments. The slotted drive allows for easy installation and removal using standard tools, while the ultra-low cap head is specifically designed to reduce protrusion and prevent interference in assemblies with limited

clearance. This makes them ideal for applications requiring flush or near-flush finishes. The high-quality stainless steel construction ensures strong, secure fastening even in demanding conditions.
